Mike Cirian sent me an RI/FS Oversight Statement of Work that provides oversight of PRP field activities through September 2017 when our regional RAC contract with CDM Smith is due to end. I would like to sit down as a group to ensure that data that is collected meets the needs for the HHRA and BERA and that a process is in place to ensure that data is incorporated into EPA's SCRIBE database. I do not expect that the call will last an hour but have set this time aside just in case.

Mike can you send the AOC and a copy of the most recent schedule provided by CFAC's contractor so that we have these documents to work off of.

Talk to everyone on Tuesday.
